Linphone Configuration Guides

Register Linphone on Windows or Mac OS

Register Linphone on iOS or Android devices

Linephone is a softphone which runs on Windows, Android, iOS, MacOS and Blackberry. MyPBX extensions can be registered with Linphone. Before registering, please make sure you have created the extension on MyPBX.

Register Linphone on Windows or Mac OS

Step1. Download (<u>www.linphone.org/eng/download/packages/linphone.html</u>) and install Linphone on your Windows or Mac PC and launch Linphone. Choose 'Options->Preferences' to open the settings page. Select 'Manage SIP Account' and then 'Add' new account.
